11 Composing Emails

12 Attachments

13 Managing Spam

14 Email Organization

15 Internet Safety

16 Cloud Storage

▲ TODAY

Recap: Chapter 6

1

Extensions Customize Your Browser

But always check permissions before installing.

2

Official Stores Only

Avoid third-party download sites for extensions.

3

You're in Control

Enable, disable, pin, or remove any extension anytime.

4

Less Is More

Too many extensions slow your browser down.

Quick check: where do you go to manage installed extensions?

Today's Objectives

1

Understand Bookmarks vs. History

Saved and permanent, versus automatic and temporary.

2

Create & Save Bookmarks

Use the star icon, Ctrl+D, or the browser menu.

3

Organize with Folders

Build a folder structure and keep it tidy.

4

Access, Sync & Backup

Use the bookmarks bar, sync devices, and export for backup.

We'll close with a 4-question recap — keep these four goals in mind.

CHAPTER 07

Bookmarks & Favorites

Organising and accessing your favourite websites efficiently

Understanding Bookmarks

Saved shortcuts to websites you want to revisit — one click instead of typing the URL or searching again. Also called Favorites in some browsers.

Save Time

One-click access to any site

Organise Resources

Categorise by topic or purpose

Never Forget

Remember useful sites permanently

Sync Across Devices

Access bookmarks on phone, tablet, PC

Bookmarks vs. History

Bookmarks

- Manually saved
- Permanent until you delete
- Organised by you in folders

History

- Automatically recorded
- Temporary — auto-deleted over time
- Chronological list only

Creating & Saving Bookmarks

★ Star Icon

- 1 Navigate to the website
- 2 Click the ★ star in address bar
- 3 Edit name & choose folder (optional)
- 4 Click Done

Keyboard Shortcut

Ctrl + D

Instantly bookmarks the current page

Then edit the name and folder in the pop-up that appears

Menu Option

Chrome:

: → Bookmarks → Bookmark this tab

Firefox:

≡ → Bookmarks → Bookmark current tab

All Tabs:

Right-click tab → Bookmark all tabs

When saving you can: rename it, choose or create a folder, and edit it later by right-clicking → Edit

Organising Your Bookmarks

Example Structure

- Work
 - Projects
 - References
 - Tools
- Personal
 - Banking
 - Shopping
 - Social Media
- Learning
 - Courses
 - Articles

Create a Folder

During bookmarking: click dropdown → New folder
In manager: right-click → Add new folder

Move Bookmarks

Drag & drop to new location
Or right-click → Cut → Paste

Rename

Right-click bookmark → Edit → Type new name

Regular Cleanup

Delete unused bookmarks monthly
Check for broken links

Accessing & Using Bookmarks

Bookmarks Bar

Bar below address bar
Ctrl+Shift+B to show/hide
Click any bookmark to open

Search Bookmarks

Type name in address bar
Or use search in Bookmark Manager

Sync Across Devices

Sign in to browser account
Enable sync in settings
Auto-syncs all devices

Import / Export

Manager → Export → Save HTML
Manager → Import → Select file

Opening Bookmark Manager

Chrome: ⋮ → Bookmarks → Bookmark manager or Ctrl+Shift+O

Firefox: ≡ → Bookmarks → Manage Bookmarks

Tip: Keep most-used bookmarks on the bar for instant one-click access

Backup bookmarks regularly by exporting to HTML — you can import them on any browser later

Practice Exercise

1

Bookmark a Page

Press Ctrl+D, name it, and choose or create a folder.

2

Create Two Folders

Make “Work” and “Personal” folders in your bookmark manager.

3

Toggle the Bookmarks Bar

Show and hide it with Ctrl+Shift+B.

4

Export a Backup

Export your bookmarks to an HTML file.

Take 10 minutes — pair up if you'd like, then we'll review together.

Key Takeaways

1

Bookmarks Save You Time

One click beats typing or searching every time.

2

Ctrl+D Is the Fastest Way

The star icon and browser menu also work.

3

Folders Keep Things Findable

Organize by topic and clean up monthly.

4

Back Up by Exporting

An HTML export can be imported into any browser.

Next up — Chapter 8: Email Introduction
