16	Track Changes & Reviewing
17	Mail Merge Basics
18	Long Documents: TOC & Footnotes
19	Sharing, Exporting & Printing
20	Final Project: Build Your CV

[Recap](#) · [Chapter 9](#)

Recap: Chapter 9

1

Tab Moves You Forward

Tab jumps to the next cell. From the last cell, it creates a new row.

2

Layout Tab Controls Structure

Insert and delete rows/columns from Table Tools → Layout.

3

Design Tab Controls Looks

One click from the Table Styles gallery gives a complete, consistent look.

4

Merge and Sort Add Polish

Merge cells for headers that span columns. Sort your data to organize it instantly.

Preview

Today's Objectives

1

Insert Pictures

Add an image from your computer or the web at exactly the spot you choose.

2

Insert Shapes

Draw rectangles, circles, arrows, and lines for simple diagrams.

3

Wrap Text Around Images

Control how text flows around a picture instead of jumping past it.

4

Resize, Move & Format Objects

Adjust size and position safely, then add borders or shadows.

Inserting Pictures

1

Insert Tab → Pictures

Insert tab → Pictures → This Device. Choose an image file from your computer.

2

Online Pictures

Insert tab → Pictures → Online Pictures. This searches the web for images to insert.

3

Where the Picture Lands

A picture drops in at your cursor's position. Click first to choose where.

4

Supported File Types

Word accepts JPG, PNG, GIF, and BMP files, among others.

Inserting Shapes

1

Insert Tab → Shapes

Insert tab → Shapes. Pick a shape, then click and drag on the page to draw it.

2

Common Shapes

Rectangles, circles, arrows, and lines cover most everyday diagrams.

3

Adding Text to a Shape

Right-click a shape and choose Add Text. You can now type directly inside it.

4

Shape Fill & Outline

Shape Format tab → Shape Fill or Shape Outline. This changes the color inside and around a shape.

Wrapping Text Around Images

1

What Text Wrap Does

It controls how text flows around a picture, instead of jumping to a new line.

2

In Line with Text

This is the default. It treats the image like a large character. It is hard to move freely.

3

Square & Tight

Square wraps text around the image's box. Tight wraps text around its actual outline.

4

The Layout Options Button

Click a picture. Then click the small icon beside it to change the wrap style instantly.

Resizing, Moving & Formatting Objects

1

Resize with the Corner Handles

Drag a corner handle to resize. This keeps the image from stretching out of shape.

2

Move with Your Cursor

Click and drag the middle of an image or shape to reposition it.

3

Picture Styles

Picture Format tab → Picture Styles. Add a border, shadow, or frame with one click.

4

Alt Text for Accessibility

Right-click → Edit Alt Text. This describes an image for screen readers.

PRACTICE

Add a Certificate Photo

1

Insert a Picture

Insert tab → Pictures → This Device. Insert any image file from your computer.

2

Resize It

Drag a corner handle. Make the picture about half its original size.

3

Move It

Click and drag the picture to the top of the page.

4

Check the Size

Right-click the picture → Size and Position. Note the exact width and height shown.

PRACTICE

Wrap Text Around a Photo

1

Type a Sentence

Above your picture, type: “Hunar Institute trains students in practical computer skills.”

2

Set Wrap to Square

Click the picture. Open Layout Options. Choose Square.

3

Move the Picture

Drag the picture to the right side of the sentence. The text should flow around it.

4

Try Tight Wrap

Switch to Tight wrap. Compare how the text hugs the picture differently.

Wrap-Up

Key Takeaways

1

Pictures Insert at the Cursor

Click first to choose exactly where an image lands.

2

Shapes Come with Fill and Outline

The Shape Format tab controls both.

3

Text Wrap Controls the Flow

Square and Tight are the two most useful styles.

4

Corner Handles Resize Safely

Dragging a corner keeps the image in proportion.

Next up — Chapter 12: Styles & Themes
