Recap: Chapter 3

1

Many Paths to a Website

URL, search, links, bookmarks, or history — pick what's fastest.

2

Tabs Keep You Organized

Ctrl+T, Ctrl+W, and Ctrl+Tab become second nature fast.

3

History Is Searchable & Clearable

Ctrl+H to browse it, Ctrl+Shift+Delete to clear it.

4

Search Operators Save Time

Quotes, minus, site:, and filetype: narrow results fast.

Quick check: how would you search for PDFs only on a .gov site?

Today's Objectives

1

Understand Download vs. Upload

Know the direction, common file types, and typical speeds.

2

Download Files Safely

Follow the process and verify files before opening them.

3

Manage Your Downloads

Use Ctrl+J to locate, move, and troubleshoot downloaded files.

4

Upload & Organize Files

Send files to email/cloud, then keep them named and backed up.

We'll close with a 4-question recap — keep these four goals in mind.

CHAPTER 04

Download & Upload

Managing file transfers between your device and the internet

Download vs. Upload

Download

Internet → Your Device

- Software & apps
- Documents (PDF, Word)
- Images & photos
- Music & videos

VS

Upload

Your Device → Internet

- Email attachments
- Photos to social media
- Videos to YouTube
- Files to cloud storage

⚡ Speed measured in Mbps — 1Mbps: basic browsing | 10–25 Mbps: HD video | 50+ Mbps: 4K & large files

Download speed is usually faster than upload speed

Downloading Files, Images & Videos

How to Download a File

- 1 Click the Download link or button
- 2 Choose a save location (Downloads folder)
- 3 Watch the progress bar at the bottom
- 4 Open the file to verify it downloaded correctly

Save Images

- Right-click → Save image as
- Drag image to desktop
- Click image → Download button

Videos

- YouTube Premium / offline feature
- Social media built-in save options
- Only download what you have rights to use

 **Only download from trusted websites — scan files with antivirus before opening**

Managing Downloads

Open Download Manager

Press **Ctrl+J**
Or click menu →
Downloads

Open / Locate File

Click filename to open
Show in folder to locate it

Change Save Location

Settings → Downloads
Set default folder or ask
each time

Download Safety

Only use trusted sites
Scan with antivirus before
opening

Troubleshooting

⚠ Download failed

Check internet connection, retry, or try a different browser

⚠ Slow download

Check your speed, close other apps using bandwidth

⚠ Virus warning

Stop immediately — find the file from an official source

⚠ Wrong file type

Check file extension — .exe files can be risky on Windows

Uploading Files to Websites

How to Upload

- 1 Find the Upload / Attach / Browse button
- 2 Select your file(s) from your computer
- 3 Watch the upload progress bar
- 4 Wait for confirmation message

Common Scenarios

Email

Paperclip icon → select file → send

Cloud Storage

Google Drive / Dropbox → New → Upload

Social Media

Photo icon → select media → post

Upload limits: Gmail 25 MB | Google Drive 15 GB free | Facebook video 10 GB | Drag & drop also works!

Saving & Organising Your Files

Folder Structure

Organise by type, date,
or project
Rename files
descriptively

Cloud Backup

Google Drive, Dropbox,
OneDrive
Access from any device,
auto backup

Find Files

Windows key + filename
to search
Ctrl+J for recent browser
downloads

Browser Sync

Sign in to sync
bookmarks, history
passwords & open tabs
across devices

Best Practices

- ✓ Use consistent naming: YYYY-MM-DD_ProjectName for easy sorting
- ✓ Clear Downloads folder monthly — delete files you no longer need
- ✓ Keep cloud + local copies of important files for safety
- ✓ Scan all downloads with antivirus before opening

Practice Exercise

1

Download a File

Download a PDF from a trusted site and confirm it opens correctly.

2

Find It with Ctrl+J

Open your download manager and locate the file you just saved.

3

Upload Something

Attach a photo to a Gmail draft or upload it to Google Drive.

4

Rename It Properly

Rename the file using YYYY-MM-DD_ProjectName format.

Take 10 minutes — pair up if you'd like, then we'll review together.

Key Takeaways

1

Download In, Upload Out

Download = internet to device. Upload = device to internet.

2

Always Verify Before Opening

Use trusted sites only, and scan downloads with antivirus.

3

Ctrl+J Is Your Download Manager

Locate, open, or troubleshoot any download in one place.

4

Organize As You Go

Consistent names, tidy folders, and cloud backup save time later.

Next up — Chapter 5: Browser Settings
