Practice Exercise: Computer Basics

Build a 6-slide presentation using four layouts

WHAT YOU WILL MAKE

File name: My Computer Basics.pptx
Save location: Desktop
Layouts used: Title Slide, Title and Content, Section Header, Comparison
Skills used: new presentation, save, layouts, typing text, fonts, bullets, text box, spell check

Step 1: Set Up and Save

1. Click **Start**, type **PowerPoint**, and open it. Click **Blank Presentation.**
2. Press **Ctrl + S**, click **Browse**, and choose **Desktop**. Type the name **My Computer Basics** and click **Save.**
3. Click **Slide 1** in the Slides panel. Press **Ctrl + M** five times. You now have **6 slides.**

Tip: save early and press Ctrl + S often.

Step 2: Set the Layouts

For each slide: click it in the Slides panel, click Home, then Layout, then choose the layout from the table. Slide 1 is already a Title Slide.

Slide	Layout	Topic
1	Title Slide	Computer Basics
2	Title and Content	What is a Computer?
3	Section Header	Part 2: Hardware and Software
4	Comparison	Hardware vs. Software
5	Title and Content	Using a Computer Step by Step
6	Title and Content	Summary

Step 3: Type the Content

Click inside a box that says "Click to add..." and type. In a content box, press Enter for each new line.

Slide 1: Title Slide

TYPE THIS

Title: Computer Basics
Subtitle: What a computer is and what it does

Slide 2: Title and Content

TYPE THIS

Title: What is a Computer?
It is an electronic machine
It follows instructions
It works with data
  – Input: data goes in
  – Output: results come out

Sub-bullets: type **It works with data**, press **Enter**, then press **Tab**. Type the sub-bullet. To move back out, press **Shift + Tab**.

Slide 3: Section Header

TYPE THIS

Title: Part 2: Hardware and Software
Text: The two main parts of every computer

Slide 4: Comparison

This layout has five boxes: the title, two small headings, and two content boxes. Fill them in this order.

TYPE THIS (LEFT SIDE)

Title: Hardware vs. Software
Left heading: Hardware
Parts you can touch
Keyboard and mouse
Monitor and printer

TYPE THIS (RIGHT SIDE)

Right heading: Software
Programs and instructions
Windows and PowerPoint
You cannot touch it

Slide 5: Title and Content

TYPE THIS

Title: Using a Computer Step by Step
Turn on the computer
Open a program
Type and save your work
Close the program
Shut down the computer

Slide 6: Title and Content

TYPE THIS

Title: Summary: Computer Basics
Computer: an electronic machine
Hardware: parts you can touch
Software: programs that give instructions

Keep every line to 6 words or fewer (the 6 x 6 rule).

Step 4: Format the Text

On Slides 2, 5 and 6

1. Click the title, then press **Ctrl + A**. On the Home tab set the size to **40**, click **Bold**, then press **Ctrl + E** to center.
2. Click the list, press **Ctrl + A**, and set the size to **24.**

Then, one extra change on each slide

1. **Slide 2:** double-click the word **electronic** and press **Ctrl + B.**
2. **Slide 5:** click the list, press **Ctrl + A**, click **Numbering**, then click **Line Spacing** and choose **1.5.**
3. **Slide 6:** double-click the first word of each line (Computer, Hardware, Software) and press **Ctrl + B.**
4. **Slide 6:** select the title, click the arrow next to **Font Color**, and choose a dark color with high contrast.

Step 5: Add Your Name to Slide 1

1. Click **Slide 1** in the Slides panel.
2. Click the **Insert** tab, then click **Text Box.**
3. Drag on the slide, near the bottom, to draw the box.
4. Type: **Slides by [your name]** (use your real name).
5. Select the text and set the size to **18** or larger. Never go below 18.
6. Drag the border of the box to place it neatly at the bottom of the slide.

Step 6: Check and Save

1. Press **F7** (Spelling). Fix real mistakes with **Change**. Use **Ignore** for names.
2. Read every slide out loud. Spell check cannot find a real word in the wrong place.
3. Click **View > Slide Sorter**. Check that the 6 slides are in the right order. Click **Normal** to return.
4. Press **Ctrl + S**. Check that the file **My Computer Basics** is saved on the Desktop.

Bonus: Finished Early?

1. On Slide 6, click **Insert > WordArt**, pick a style, and type **Thank you!** Drag it to an empty space.
2. Press **Ctrl + S** to save the change.
3. Click **File > Save As > Browse**. Under Save as type choose **PDF**. Name it **My Computer Basics PDF** and click **Save.**
4. Click **File > Save As** again. Choose **PowerPoint Show**. Name it **My Computer Basics Show** and click **Save.**

Show Your Teacher

- ☐ Slide 1: Title Slide, with the "Slides by [name]" text box
- ☐ Slide 2: Title and Content, with 2 sub-bullets
- ☐ Slide 3: Section Header
- ☐ Slide 4: Comparison (Hardware vs. Software)
