UNIT 2

# Creating and Saving Presentations

Start a new presentation, save it safely, and choose the right file format

**Slides by Sir M. Khan Jamali**

TODAY'S GOALS

# What you will learn today

By the end of the lesson you can:

1

**CREATE**

**a blank presentation and one from a template**

2

**SAVE**

**your work with Save and Save As**

3

**CHOOSE**

**the right file format**

4

**USE**

**the shortcuts Ctrl + N and Ctrl + S**

CREATING

# Blank or template?

## Blank Presentation

Starts with one empty title slide. You have complete creative control.

**Best for: a custom design.**

## Template

A ready-made professional design. Pick one that matches your need.

**Best for: saving time and business presentations.**

**Shortcut:** Ctrl + N makes a new blank presentation.

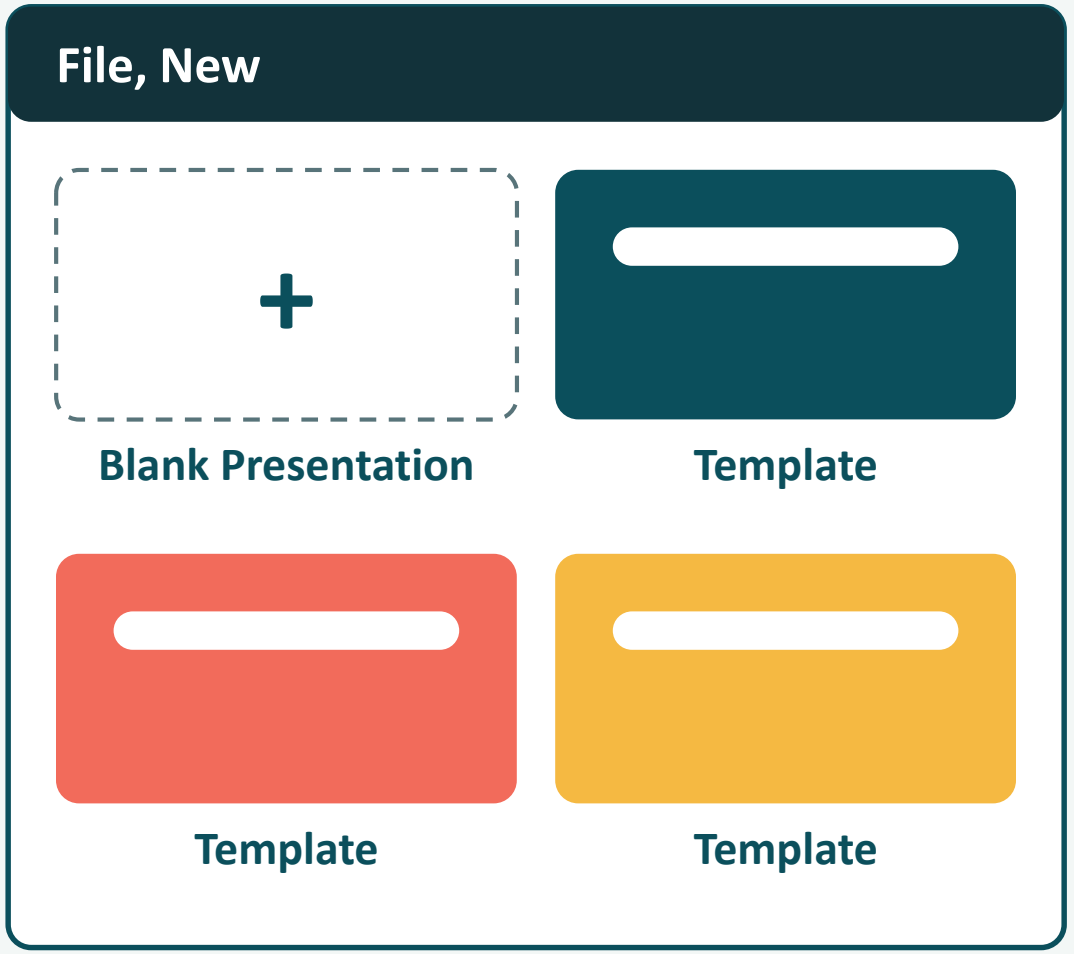

CREATING

# Creating a new presentation

1. Click the File tab.
2. Click New.
3. Click Blank Presentation, or select a template.
4. For a template, click Create.

**Shortcut:** Ctrl + N

No internet? Use the template pictures you can see on the screen.

SAVING

# Save and Save As

## Save

First save: File, Save As. After that, Ctrl + S saves at once. No box appears.

**Shortcut:** **Ctrl** + **S**

Or click the Save button on the Quick Access Toolbar.

## Save As

Makes a new copy with a new name, a new place or a new type.

**Shortcut:** **F12**

**File, Save As, Browse, type a name, Save**

**Remember:** Save As is also how you change the file type.

SAVING

# Save early, save often

## Save early

Save the file as soon as you have typed the first slide.

## Save often

Press Ctrl + S every 5 to 10 minutes.

## Name it clearly

Use a name you can find again, like My Unit 2.

Ctrl + S

**Why?** If the power goes off or PowerPoint closes, you lose only the work since your last save.

FILE FORMATS

# File formats

**.pptx**

### PowerPoint Presentation

The standard file. You can edit it later.

**.ppsx**

### PowerPoint Show

Opens directly in slideshow mode. Good for presentations that are only viewed.

**.pdf**

### PDF Document

Cannot be edited. Can be viewed on any device. Universal format for sharing.

**.ppt**

### PowerPoint 97-2003

For compatibility with older versions of PowerPoint.

**Where?** Choose the format in the Save as type box in the Save As window.

PRACTICE

# Practice: Create and save

**BLANK**

1. Blank Presentation. Type Slide 1.
2. Ctrl + S, Browse, Desktop. Name: My Unit 2.

**TEMPLATE**

3. File, New. Pick a template. Click Create.
4. Type the template slide. Save it as My Template.

**FORMATS**

5. Save As, type PowerPoint Show: My Template Show.
6. Save As, type PDF: My Template PDF.

**TYPE THIS**

**SLIDE 1**

Title: Creating and Saving

Subtitle: Your name

**TEMPLATE SLIDE**

Title: My Template

Subtitle: Unit 2 practice

**ON THE DESKTOP**

1 My Unit 2
2 My Template
**3 My Template Show**
**4 My Template PDF**

BONUS

# Bonus: save a copy

Finished early?

1. File, Open, Browse. Open My Unit 2 from the Desktop.
2. Press Ctrl + M. Type Slide 2 from the box.
3. Click the Save button on the Quick Access Toolbar.
4. File, Save As. Name: My Unit 2 Copy. Save.
5. Close PowerPoint. On the Desktop, double-click My Template Show. Press Esc.

TYPE THIS

**SLIDE 2**
