Recap: Unit 8

The Desktop

Your computer's main screen — home to icons and the background wallpaper.

The Taskbar

The bar along the bottom with the Start button, open apps, and the clock.

The Start Menu

Click the Windows icon to find and open all of your installed programs.

Icons & Shortcuts

Small pictures on the Desktop that open a file, folder, or app.

? Quick check: which mouse action do you use to open an icon on the Desktop — a single click or a double click?

Today's Objectives

Master Mouse Actions

Confidently perform single click, double click, right click, and click & drag.

Use Keyboard Shortcuts

Learn the essential Ctrl, Alt, and Win key combinations for everyday tasks.

Delete the Right Way

Know the difference between the Delete key, Backspace key, and Shift + Delete.

Know Your Special Keys

Use Caps Lock, Shift, Tab, Home/End, and Page Up/Down with confidence.

 We'll close with hands-on practice and a quick quiz — keep these four goals in mind.

UNIT 09

Mouse & Keyboard Skills

A simple guide to using your mouse, typing easily, and working faster

Using the Mouse

Single Click: Press the left button once. Use this to select items or text.

Double Click: Press the left button twice quickly. Use this to open files or apps.

Right Click: Press the right button once. It shows a list of extra options (a menu).

Click & Drag: Hold the left button down and move the mouse to slide items around.

Scroll Wheel: Roll the middle wheel up and down to scroll pages up and down easily.

☒ Remember This!

Click once to select. Click twice to open! Don't double-click internet links or taskbar icons.

Useful Keyboard Shortcuts

GROUP	KEYS TO PRESS	WHAT IT DOES
Editing Work	Ctrl + C	Copy: Copies text or files to computer memory.
Editing Work	Ctrl + X	Cut: Removes the selected text or file.
Editing Work	Ctrl + V	Paste: Places the copied or cut text or file.
Editing Work	Ctrl + Z	Undo: Fixes a mistake by going back one step.
File Control	Ctrl + S	Save: Saves your work so you do not lose it.
File Control	Ctrl + A	Select All: Selects everything on the page.
File Control	Ctrl + P	Print: Sends your active file to the printer.
File Control	Alt + F4	Close: Closes the active program or window.
Screen Control	Win + D	Show Desktop: Instantly hides all open windows.
Screen Control	Win + E	Explorer: Opens the computer's storage folders.
Screen Control	Win + L	Lock PC: Locks your computer screen safely.

Deleting Files and Text

Delete Key

Sends selected folders or files to the Recycle Bin so you can get them back later if you need them.

Shift + Delete

Deletes files permanently. This skips the Recycle Bin completely. You cannot get them back!

Backspace Key

Erase letters to the left of your active typing cursor. Helpful for fixing spelling errors.

Warning

Be very careful when pressing Shift + Delete. Make sure you don't need that file anymore before you do it!

Special Keys on Your Keyboard

Caps Lock: Turns on typing in CAPITAL LETTERS (LIKE THIS).

Shift Key: Hold this down to type single capital letters, or to use top-row symbols like **!** and **@**.

Tab Key: Jumps your cursor forward or switches between active typing boxes.

Home & End: Jumps your writing cursor to the absolute start or end of a line.

Page Up & Down: Scrolls a reading window up or down by one full page.

Classroom Practice: Time to Try!

 Goal: Practice your mouse and keyboard skills with these four hands-on activities.

01 Desk Clean-Up: Click & drag 3 icons on your desktop to arrange them in a straight line.

02 Open Notepad: Double-click the Notepad icon. Type your name and favorite color on the screen.

03 Copy Cat: Press **Ctrl + A** to select, **Ctrl + C** to copy, and **Ctrl + V** to paste it.

04 Time Machine & Save: Press **Ctrl + Z** to undo your last action. Press **Ctrl + S** to save your file safely.

Practice Game

Try completing steps 03 and 04 without touching your mouse! Use keyboard shortcuts only.

Show What You Know!

1

Question 1

What is the main difference between using the normal **Delete** key vs. using **Shift + Delete**?

2

Question 2

If you accidentally delete some text while typing in Notepad, what shortcut keys should you press to fix it?

3

Question 3

Which mouse button (left or right) is used to see extra option menus and actions for folders?

Key Takeaways

Mouse Actions

Single Click selects items or text. Double Click opens files or apps. Right Click shows a menu of extra options. Click & Drag moves items, and the Scroll Wheel scrolls pages up and down.

Keyboard Shortcuts

Ctrl + C copies, Ctrl + X cuts, and Ctrl + V pastes. Ctrl + Z undoes a mistake, Ctrl + S saves your work, and Ctrl + P prints your file.

Deleting Safely

The Delete key sends files to the Recycle Bin, so you can get them back. Shift + Delete removes them permanently — only use it when you are sure.

Special Keys

Caps Lock types in CAPITAL LETTERS. Shift makes single capitals and top-row symbols. Tab, Home, End, and Page Up/Down all move your cursor around the screen.
